B. According to the summary, which variables had the greatest effect on the survival rate?

The variables which had the greatest effect on the survival rate are the PRE9T (Dyspnoea), PRE14OC14, PRE17 (Type 2 DM), and PRE30(Smoking).

C. Predict outcome and accuracy percentage

```
##              Predicted_Value
## Actual_Value FALSE TRUE

##            T    67    3
